

Module 01

“When typography is on point, words become images.”
- Shawn Lukas

Ponder | Module 01

Introduction:

I am Marchylia Fransisca Prasetyanti Pratikto and my major is Web Graphic Design and Development emphasis on Graphic Design.

Before BYU-I:

I graduated Preparatory Charter High (PCH) in 2013 with a 3.6 GPA and 6 college credits with the Community College of Philadelphia during my Senior year of H.S. As a student there, we had to take Career Development credits within the 9th grade through the 11th. I was part of the National Honor Society as well. Within the Fall of 2013, I started the BYU-I Pathway Online Programs in which I finished with the 15 credits by the Summer of 2014. I recently became a student at Brigham Young University Idaho by Winter 2015 and am a current student.

Within BYU-I:

I declared the Web Graphic Design and Development major coming up here with a plan of graduating with an Associate Degree. I wanted to go for at least a Bachelor Degree, but with certain circumstances, being an International Student with most of the financial support coming from parents, I agreed with the plan my parents and I have discussed.

Throughout my first year on-track, I have had some thoughts. I made certain decisions after taking an AUTO class during my second semester; wanting to take more AUTO classes for when I over-ride my off-track and still have the time to take the classes for my original major. After visiting with an advisor at the Academic Discovery Center, I then wanted to go for the University Studies/Interdisciplinary Studies, combining the Graphic Design AAS and the AUTO maintenance, also adding a Cluster as required. However, I have to scratch the plan and back to my original one due to the financial situation.

Pursuing:

I feel blessed with all the opportunities that are laid upon as well as the struggles I have to go through. It has been a journey worth the future, and I desire to move forward in life. As of currently, I still do not have any idea of what I'll be regardless of going about my major already. I think at this point in life, it is important for me to rely on Heavenly Father to reveal His great plan for me when the time is right.
